edTripper

EdTripper connects students with the best excursions, incursions, and digital educational activities in Australia and around the world.

So, how does it work?

For Providers

Visibility: Each provider has their own EdTripper profile showcasing their current educational offerings

Scheduling: Smooth scheduling and booking platform allows providers to fine-tune program availability

Booking: School booking requests are easily managed and accepted with all the information you might need

Communication: Chat with teachers, send updates, and automate reminders in your simple live dashboard

Resourcing: Save time and money by lowering staff touch points through admin and reporting automation

Coming Soon for Providers...

Analytics: Better understand and act on the school data connected to your attraction and programs

Compliance: Reduce friction around risk assessment while maintaining the highest standards

For Schools

Seamless: Discover, research, and reach out to new experiences and educational activities effortlessly

Transparent: Up-front program details like availability, pricing, ratios, objectives and risk assessments

Fast: No more inquiry forms or back-and-forth; sign up once and automatically share details with providers

Collaborative: Chat directly with providers on our platform for special requests or to clarify details

Integrated: Wishlists, favourites, inquiries, and booked programs are in one place for school faculty to access

Coming Soon for Schools...

Community - Teachers can ask questions on pages and leave ratings and reviews for attended programs

Approvals - Streamlined consent and approval flows between schools and providers
